NetDragon Will Offer Overseas Markets Free Internet Café Management Software – '91 Cybercafe'

[26 November, 2010 Hong Kong] NetDragon Websoft Inc. ("NetDragon"; Stock Code: 777), a leading online game developer and operator in China, will offer its comprehensive in-house developed internet café management solution, '91 Cybercafe', to overseas markets. '91 Cybercafe' will initially be available in Arabic, Spanish and English language versions, and is able to integrate the four core functions of operational domain management, terminal equipment management, three-level content update, and value-added business promotion. More information is available at cc.91.com.

As a leading force in overseas expansion among China online game companies, NetDragon has been offering worldwide players a variety of large-scale online games, through which NetDragon has gained a wealth of experience in overseas operations and the needs of internet café operators. By using '91 Cybercafe', cafe operators can effectively eliminate the risk of incompatibility among various café management products while reducing costs. In the future, by utilizing the broad platform of '91 Cybercafe', NetDragon hopes to create an integrated promotion platform for global game developers, websites and other enterprises who promote their products or services among patrons of internet cafés, thus realizing a win-win solution for content providers, internet café operators and end users.
