

NetDragon Launched New EP for Eudemons Online: "Trumpet of the Legionaire"

[1 Nov, 2011, Hong Kong] **NetDragon Websoft Inc.** ("NetDragon", Stock Code: 777), a leading online game and mobile Internet platform developer and operator in China, launched the "Trumpet of the Legionaire" EP for its flagship online game Eudemons Online on Oct. 30, 2011 in China. "Trumpet" follows on this past April's release of the "Edge of Night" EP, which led to Eudemons Online hitting a four-year high in concurrent players this past spring.

"Trumpet" features "Legion Eudemons", a full-scale upgrade to Eudemons Online's "Legion System". After getting "Multiple Legion riders on a Legion Mount", players can invite members from their own legion to ride them, to build team spirit among players and further enhance the "stickiness" of the game. Furthermore, the addition of a variety of Legion Eudemons makes the battle scenes even more spectacular.

As Eudemons Online approaches its 6th Anniversary, NetDragon's flagship title remains hugely popular with players. The launch of "Legion" is expected to once again stir up enthusiasm of both new players and veterans, and continue to drive the game's outstanding recent performance. In addition, the English version of "Trumpet" is expected to be launched this December.

About NetDragon

NetDragon Websoft Inc. is a leading innovator and creative force in China's online gaming and mobile internet industries. Established in 1999, we are a vertically integrated developer & operator of MMORPGs and a cutting-edge R&D powerhouse. We launched our first self-made online game Monster & Me in 2002, followed by multiple titles including Eudemons Online, Conquer Online, Heroes of Might & Magic Online and Disney Fantasy Online. We are also China's pioneer in overseas expansion, directly operating titles in overseas markets since 2004 in English, Spanish, Arabic and other languages. Our online games currently in development include Dungeon Keeper Online (previously named as World of Dungeon Keeper), TRANSFORMERS Online, icombo (previously named as Cross Gate), and a new version of Ultima Online. In the mobile Internet industry, we provide China's leading marketplace for smartphone users, offering applications and content for the most popular mobile operating systems. NetDragon owns many well-known mobile Internet products, including 91 Panda Reader, 91 PC Suite, 91 Panda Space, 91 mobile portal and hiapk.com.
